APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 48910 is issued subject to the terms and conditions imposed in said Permit 48910 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary (CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0557 cubic feet per second, but not to exceed 40.3 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before January 4, 1992
 Proof of completion of work shall be filed before February 4, 1992
 Application of water to beneficial use shall be made on or before January 4, 1993
 Proof of the application of water to beneficial use shall be filed on or before February 4, 1993
 Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed FEB 13 1992
 Proof of beneficial use filed

use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies and is specifically issued contingent upon approval by the Nevada Division of Environmental Protection of the dewatering project.

The total combined duty of water under Permits 40900, 47962, 48328, 48330, 48910, 48911, 48912, 49550, 49916, 49962, 51962, 52330, 52331, 52332, 52883, 52884, 53384, 53385, 54339, 54340, 54341, 55614-T, 55615-T, 55616, 55617, 55618, 55619, 56411-T and 56751-T shall not exceed 10,582 acre feet annually.

Any water obtained under Permits 52883, 52884, 53384, 53385, 54339, 54340, 54341, 55614-T, 55615-T, 55616, 55617, 55618, 55619, 56411-T and 56751-T as a result of the dewatering program by the permittee shall be used first for mining, milling, heap leaching, drilling, road water and other related mining and milling uses within the place of use as described.

A monthly report shall be submitted to the State Engineer within 10 days from the end of the month which shall include the amount of water pumped from each well and the amount of water used for mining and milling purposes.

A year end report shall be submitted to the State Engineer no later than 45 days after the end of the calendar year as to how many wells have been drilled under this permit as well as how many have been abandoned. The exact location of each well drilled or abandoned shall also be supplied in this report.
